

I wish to take this opportunity to voice my support of satellite-based radio services. I have been and continue to be a very satisfied subscriber to XM Radio. It affords me with the ability to receive up-to-the-minute news (CNN, FOX, MSNBC and other) while in my car.

I travel approximately 50,000 miles per year and while on the road, I find the XM Radio a very valuable source of news and entertainment.

I respectfully urge you to reject the petition of the National Association of Broadcasters (04-160) currently under discussion.

Sincerely,
Barrett M Kanne
